# UltrA CatchéR 4

WHAT'S INSIDE

Ultra Catcher 4   Lanyard   Simple instructions

GETTING STARTED

Remove the battery cover from the back of the main unit and insert two AAA batteries. When the batteries are installed, the four buttons will light up in green.

Each LED button represents an individual account, allowing you to turn off unused accounts to save power. Press the LED button 3 times to turn off the account. When the account is powered off, the button will light up red and will no longer respond.

*It is recommended to turn off the power frequently when not in use to prevent the battery from draining.
